### About Become

Become is the national charity for children in care and young care leavers. Our vision is that care-experienced people have the same chances as everyone else to live happy, fulfilled lives. Our mission is to help children in care and young care leavers to believe in themselves and to heal, grow and unleash their potential. We work alongside them to make the care system the best it can be.

## **Methodology**

Between October 2022 and February 2023 Become submitted a number of Freedom of Information requests to the Department for Education and to 151 local authorities in England relating to children in care in England. The findings from the responses to these information requests are recorded in this appendix document for the purposes of news reporting.

## **National data**

Between October 2022 and February 2023, we submitted a number of Freedom of Information requests to the Department for Education requesting national data about children in care in England. The following information was requested:

- 1) For each of the previous five years – 2017/18, 2018/19, 2019/20, 2020/21, 2021/22 – how many Looked After Children in England were placed within and outside of their local authority area, during: a) their first or only placement; b) their second placement; c) their third or subsequent placement? The data that we received in response to this request can be found in table 3.
- 2) For each of the previous five years – 2017/18, 2018/19, 2019/20, 2020/21, 2021/22 – how many Looked After Children in England were placed more than or less than 20 miles away from home, during: a) their first or only placement; b) their second placement; c) their third or subsequent placement? The data that we received in response to this request can be found in table 2.
- 3) For each of the previous five years – 2017/18, 2018/19, 2019/20, 2020/21, 2021/22 – what was the maximum placement distance from home, the mean placement distance from home and the median placement distance from home for: a) all Looked After Children in England; b) all Looked After Children in England who had one placement; c) all Looked After Children in England who had two placements; d) all Looked After Children in England who had three or more placements? The data that we received in response to this request can be found in table 1.

- 4) On 31 March 2022 how many Looked After Children in England were placed: a) within the boundary of their local authority, b) outside of the boundary of their local authority, c) 20 miles or less from home, d) more than 20 miles from home, and e) in a placement where the distance from home is not known or recorded, who were within the following age groups: i) less than one year old, ii) aged one to four years old, iii) aged five to nine years old, iv) aged 10-15 years old, v) aged 16 or 17 years old. The data that we received in response to this request can be found in table 4.
- 5) On 31 March 2022 how many Looked After Children in England were placed: a) within the boundary of their local authority, b) outside of the boundary of their local authority, c) 20 miles or less from home, d) more than 20 miles from home, and e) in a placement where the distance from home is not known or recorded, who were within the following ethnic groups:
- i. White ethnicity – including White British, White Irish, Traveller of Irish Heritage, Gypsy Roma, or any other White background
  - ii. Mixed or Multiple ethnic groups – including White and Black Caribbean, White and Black African, White and Asian, any other Mixed background
  - iii. Asian or Asian British ethnicity – including Indian, Pakistani, Bangladeshi, Chinese, or any other Asian background
  - iv. Black, African, Caribbean, or Black British ethnicity – including Caribbean, African, any other Black background
  - v. Any other ethnic group
  - vi. Ethnicity was unknown or not recorded.

The data that we received in response to this request can be found in table 5.

- 6) On 31 March 2022, and for each of the preceding four years, how many Looked After Children in England were placed in Scotland and Wales. The data that we received in response to this request can be found in table 7.
- 7) On 31 March 2022, how many Looked After Children in England aged 4 to 16 years old were placed: a) within the boundary of their local authority, b) outside of the boundary of their local authority, c) 20 miles or less from home, d) more than 20 miles from home, e) in a placement where the distance from home is not known or recorded, including the total number of children and those who:
- i. scored below 14 on their latest recorded Strengths and Difficulties Questionnaire (SDQ) assessment

- ii. scored between 14 and 16 on their latest recorded Strengths and Difficulties Questionnaire (SDQ) assessment
- iii. scored above 17 on their latest recorded Strengths and Difficulties Questionnaire (SDQ) assessment
- iv. do not have a recorded Strengths and Difficulties Questionnaire (SDQ) assessment score.

The data that we received in response to this request can be found in table 6.

### **Local authority data**

In October 2022, Become submitted Freedom of Information requests to 151 local authorities in England. The following information was requested:

- 1) For each of the previous three years – 2019/20, 2020/21, 2021/22 – how many Looked After Children, for whom your local authority has corporate parenting responsibilities, were placed within and outside of the local authority area in: a) any type of children's social care placement; b) foster care placements; c) children's home placements; d) semi-supported placements.
- 2) For each of the three previous years – 2019/20, 2020/21, 2021/22 – what was the total combined cost to your local authority of: a) all children's social care placements; b) all foster care placements; c) all children's home placements; d) all semi-supported placements.
- 3) For each of the three previous years – 2019/20, 2020/21, 2021/22 – what was the total combined cost to your local authority of placements within the local authority area of: a) all children's social care placements; b) all foster care placements; c) all children's home placements; d) all semi-supported placements.
- 4) For each of the three previous years – 2019/20, 2020/21, 2021/22 – what was the total combined cost to your local authority of placements outside of the local authority area of: a) all children's social care placements; b) all foster care placements; c) all children's home placements; d) all semi-supported placements.

In total, we received responses from 138 local authorities (91% of all local authorities). However, many local authorities were unable to provide full responses to the information request, and some local authorities were not able to provide any information. The full data that we received from local authorities can be found on page 12: Table 8 – Number of children in care and the total cost of children social care placements by locality and placement type – local authorities in England in 2019/20, 2020/21 and 2021/22.

Several of the responses we received from local authorities included additional clarifying information on the data that they provided, including clarifying the types of placements that were or weren't included in the data provided, or changes to the way that the local authority collected or recorded data during the period from 2019/20 to 2021/22. Additionally, there was some variation in local authorities' methods of data reporting in their response to our requests, with some providing information on individual children and some, the majority, providing information on individual placements. For example, a child who has had three out of area placements in a year would contribute three to that year's out of area total for an authority reporting on individual placements, but only one to an authority reporting on individual children. These caveats, exemptions and clarifications haven't been recorded in Table 8 due to recording constraints. Consequently, due to the inconsistencies in the way that data has been provided by local authorities, it would not be fully accurate to make like-for-like comparisons between different local authorities on the basis of the data recorded in this document. Analysis of the data from local authorities is included in Become (2023), [\*Gone Too Far: Preventing children in care being moved miles from the people and places that matter to them\*](#).

1. Distance is the distance in miles between the child's home and placement. In some cases this is not known, for example UASC, or not recorded for confidentiality reasons, such as some children placed for adoption.
2. All placements for a child are included in the calculations, e.g. for children with two placements, both placements contribute towards average and maximum distances.
3. Year ending 31 March

3. Children could be counted more than once, e.g. a child with five placements will be counted five times, once in 'First or only placement', once in 'Second placement' and three times in 'Third or subsequent placement'

1. Numbers have been rounded to the nearest 10. Figures exclude children in care under a series of short-term placements. Historical data may differ from older publications which is mainly due to amendments made by local authorities after the previous publication.
2. Placement locality denotes whether or not the placement is within the geographical boundary of the responsible LA.
3. Distance is the distance in miles between the child's home and placement. In some cases this is not known, for example UASC, or not recorded for confidentiality reasons, such as some children placed for adoption.
4. There are a small number of children aged 18 included in this age group.

- Figures include children who have been in care continuously for at least 12 months on 31 March 2022, and exclude children in care under an agreed series of short-term placements. Numbers have been rounded to the nearest 10. Historical data may differ from older publications which is mainly due to amendments made by local authorities after the previous publication.
- An SDQ score is required of all children aged 4-16 on the date of last assessment. Date of assessment is not collected so data in this table is restricted to children aged 5 to 16 years. A higher score indicates more emotional difficulties. 0-13 is considered normal. 14-16 is borderline cause for concern, and 17-40 is cause for concern.
- Placement locality denotes whether or not the placement is within the geographical boundary of the responsible LA.
- Distance is the distance in miles between the child's home and placement. In some cases this is not known, for example UASC, or not recorded for confidentiality reasons, such as some children placed for adoption.

Table 8 – Number of children in care and the total cost of children social care placements by locality and placement type – local authorities in England in 2019/20, 2020/21 and 2021/22

Notes on data table below

- The table below sets out data received from local authorities up to and including 14 April 2023 – any data received after that date has not been included.
- Several local authorities could not provide all or some of the information requested for a number of reasons. The most frequent reasons why some data was not provided were that: information was not held or recorded in the manner requested (particularly in relation to financial data for placements inside or outside of the local authority boundary); to protect the confidentiality of children (particularly where there were less than five children who had been placed in a particular type of care placement within a year and recording could lead to them being personally identified); or due to a section 12 exemption, where the expected cost of compliance exceeds the appropriate limit.
- Several of the responses we received from local authorities included additional clarifying information on the data that they provided, including clarifying the types of placements that were or weren't included in the data provided, or changes to the way that the local authority collected or recorded data during the period from 2019/20 to 2021/22. Additionally, there was some variation in local authorities' methods of data reporting in their response to our requests, with some providing information on individual children and some, the majority, providing information on individual placements. For example, a child who has had three out of area placements in a year would contribute three to that year's out of area total for an authority reporting on individual placements, but only one to an authority reporting on individual children. These caveats, exemptions and clarifications haven't been recorded in the below table due to recording constraints. Consequently, due to the inconsistencies in the way that data has been provided by local authorities, it would not be fully accurate to make like-for-like comparisons between different local authorities on the basis of the data recorded in the below table.
- In their responses, several local authorities did not directly provide the data requested, but provided links to documents from which some of the data could be extracted. In these circumstances, we have not recorded data from external documents in the below table, due to a lack of consistency in the information that had been provided.
